Verify a single time

Minutes
Typical review

Secure
Encrypted & never sold

Step by step

1. Go to your dashboard and open the verification section.
2. Enter your legal name and details exactly as they appear on your ID.
3. Upload a clear, well-lit photo of a valid government ID.
4. Submit and wait for review - you will be notified when approved.

Key points

- ✓ Your data is encrypted and used only for verification.
- ✓ We never sell your personal information.
- ✓ Verification helps prevent fraud and protects your account.

Frequently asked questions

Which documents are accepted?
A valid government-issued photo ID such as a passport or national ID card.

Why was my submission rejected?
Usually a blurry photo or details that do not match. Re-upload a clear image.

Is my data safe?
Yes - it is encrypted, access-controlled, and used only to verify you.

> Use good lighting and make sure all four corners of your ID are visible and readable.
