Ref TFE-GS-2026 | Updated 27 Nov 2026 | Classification: Public | transcurrex.com

This guide walks you through your first exchange on TFE - from creating an account to receiving your money or crypto. The whole process usually takes only a few minutes.

4
Steps to your first trade

< mins
Typical completion

70+
Currencies available

Step by step

1. Create your free account with your email and a strong password.
2. Complete a one-time identity verification (KYC) - have your ID ready.
3. Choose your currencies, enter the amount, and lock in the live quote.
4. Fund the trade into escrow; once confirmed, receive your money or coins and release escrow.

Key points

- ✓ The rate you see on the board is the rate we settle at.
- ✓ Every trade is protected by escrow.
- ✓ Support is available 24/7 if you get stuck.

Frequently asked questions

How long does verification take?
Most accounts are verified quickly once a clear photo of your ID is uploaded.

What payment methods can I use?
UnionPay, Alipay, WeChat Pay, bank transfer and crypto wallets.

Is there a minimum amount?
You can start small - the platform shows any limits before you confirm.

> Tip: double-check the receiving details before you confirm - transfers move fast.
